

Professional Summary

Results-driven Digital Product & UX/UI Designer with 3+ years of international experience bridging enterprise business goals with intuitive user experiences. Specialized in end-to-end product design, scalable visual design systems, information architecture, and rapid prototyping. Adept at leveraging modern AI-assisted design workflows (Claude, Lovable) and front-end technologies (Tailwind CSS, HTML/CSS) to collaborate seamlessly with engineering teams and guide non-design stakeholders through complex creative decisions.

Core Competencies & Technical Stack

Design & Strategy:	UX/UI Design, Information Architecture (IA), User Research, High-Fidelity Prototyping, Wireframing, Visual Identity, Design Systems & Pattern Libraries, Heuristic Usability Evaluation, Conceptual Storytelling.
Design & AI Tools:	Figma (Auto Layout, Tokens, Component Libraries), Figma Make, Photoshop, Claude, Lovable, Cursor, VS Code.
Front-End & Dev:	HTML5, CSS3, JavaScript, React, Tailwind CSS, Bootstrap, WordPress, GitHub.
Methodologies:	Cross-Functional Alignment, Stakeholder Management, Agile/Scrum, Design-to-Code Handoff, Holacracy / Self-Organization.
Languages:	Italian (Native), Albanian (Native), English (Full Professional Proficiency).

Professional Experience

Digital Product Designer | [Freelance](#)

Sep 2025 – Present | Remote

- Architected end-to-end user journeys, visual brand identities, and complex digital workflows for diverse client portfolios spanning small businesses, student platforms, and public services.
- Crafted compelling design narratives from initial moodboards to final delivery, guiding cross-functional stakeholders through complex creative and architectural decisions.
- Leveraged AI-assisted tooling (Claude, Lovable) and Figma to rapidly prototype data-dense interfaces, accelerating time-to-market while maintaining visual ambition.

UX/UI Designer | [naemt.nu](#)

Feb 2025 – Sep 2025 | Odense, Denmark

- Spearheaded the 0-to-1 UX/UI design and launch of a B2C webshop tailored for the Danish market entry.
- Established a modular Figma design system and visual identity, aligning product managers and strategy teams around a unified design vision that significantly reduced handoff friction.
- Translated complex business goals and technical constraints into clear information architecture and interactive user flows under strict timeline and budget parameters.

UX/UI Designer | [I Pupi Siciliani](#)

Jan 2024 – Jan 2025 | Odense, Denmark

- Orchestrated the complete digital redesign of the core web platform, translating brand heritage into an intuitive, friction-free web experience.
- Restructured complex information architecture and multi-step user workflows, directly contributing to a +187% YoY net profit increase and +31% gross profit growth.
- Conducted iterative usability improvements and visual refinements, securing a prestigious "Byens Bedste" nomination.

UX/UI Designer | [Leader Medica](#)

Jan 2023 – Jun 2023 | Padua, Italy

- Designed accessible, scalable UI component libraries and conducted heuristic usability evaluations to enforce visual consistency across all digital touchpoints.
- Optimized key website user conversion funnels, contributing directly to a +32% revenue growth.
- Partnered closely with software developers to ensure seamless UI execution and high fidelity across responsive web layouts.

Education & Certifications

Google UX Design Professional Certificate – Coursera	Nov 2025 – Apr 2026
MSc in IT – Web Communication Design – University of Southern Denmark	Sep 2023 – Jun 2025
BSc in Communication Science – University of Ferrara, Italy	Sep 2018 – Mar 2022
